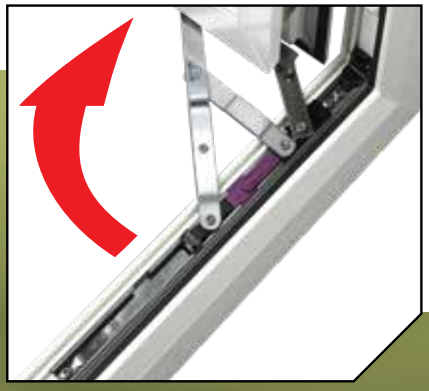
OPTIONAL FINISHES

A wide range of woodgrain and coloured-foil options are available for either or both internal and external faces or even differing frames and sashes.

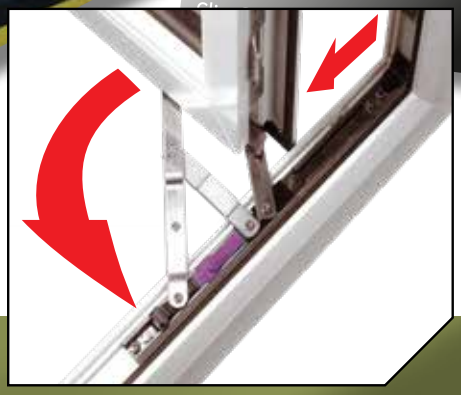
STANDARD

Easy-Clean Hinges



The Easy-Clean hinges enable the sash to be opened at 90 degrees

By pressing down on the purple button, the sash is released and can slide along it's hinge runner



This now gives access to the front of the sash from indoors for cleaning.

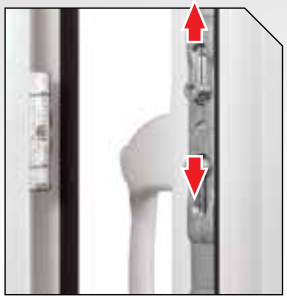
SHOOT BOLTS

The upper and lower parts of the locking mechanism contain not only a roller bolt but also shoot bolts that locate in the keeps mounted on the frame.



ROLLER BOLTS

Roller Bolts contract to lock the sash into the opposing keep. Raising the handle by 90^{0} expands the bolts to release from the keep.
