Platinum NRG

Sparkling glass

New and exclusive range

It's always time to see the light...

Once you've chosen your door it's time to turn your attention to the detailing - deciding which glazing perfectly suits your choices, your home and your personality.

A decorative glazing panel adds style and personality to your door whilst letting natural light fill your home.

Designed to keep in the warmth and with a large range of different designs, colours and glass patterns to choose from; you are able to give your door the perfect finishing touch.

The ultimate finishing touch for your door...

- ☑ 12 outstanding styles of glazing
- ☑ Create a beautiful focal point
- ☑ Traditional to contemporary choices
- ☑ Allow light to flood into your home
- ☑ Easy to clean and maintain
- ☑ Sophisticated and seamless
- ☑ Laminated glass for extra security

Sidelights

Adding sidelights to your door gives a stylish extra dimension to truly make a statement.

Not only do they look so impressive by extending the glazed area across the entrance to your home, sidelights also allow for more natural light to fill your internal living space. They are available across our Signature Esteem, Esteem Arch, Esteem Eyebrow, Elegance Arch and Classical Half Glazed ranges.

Make a statement, not just a door!

Central spring latch and deadbolt provide the maximum strength to the centre of the door

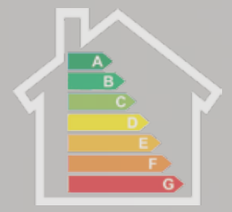
Door lock is combined into a single unit for ease of use and maximum effect

High Security solid steel and nickel plated hooks fully penetrate into the frame both at the top and the bottom

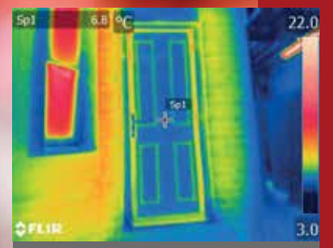
Make a statement, not just a door!

Our composite door range comes with a steel reinforced PVCu outer frame and a variety of multi point locking systems as standard.
Detailed above is the optional multi point Autofire locking system that automatically engages the hook bolt system when the door is closed without the need to use Lever handles and as such, is ideal for those that may find such operations difficult. The Autofire door lock is available in a standard handle position or as a High Level alternative with just a key cylinder for that more traditional appearance.

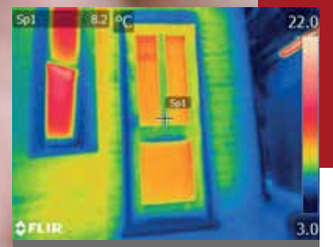
Energy Efficiency



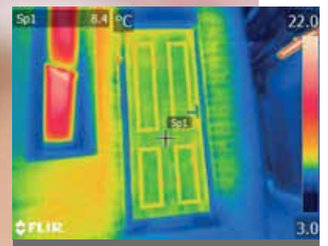
Doing our bit to keep you snug and warm in your home.



PlatinumNRG GRP composite door



Traditional timber panelled door



Solid timber core composite door

Looking after our world and your wallet...

The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum. One of the best ways to achieve this is to choose thermally efficient products which keep warmth in and cold out, saving money and emission levels.

ENERGY RATING **A**

Throughout our brochure you'll have seen that most doors display an energy rating. These are your guide to the most energy efficient products, with 'A' delivering the highest performance levels.

Tests prove a **Platinum NRG** GRP Composite Door is:-

19% More thermally efficient than a 48mm solid timber core composite door.

17% More thermally efficient than a 44mm traditional panelled door.

FACT

Doors were tested at the University of Salford's Energy House. This represents a typical Salford 1919 terraced house and its construction represents 21% of the UK's current housing stock. The house has been reconstructed in a fully environmentally controllable chamber, in which climatic conditions can be maintained, varied, repeated and patterns monitored. For the test, the inside temperature of the Energy House was 25ºC with an exterior temperature of 5ºC.
